

CHAPTER 100

STORM WATER UTILITY

100.01 Purpose

100.02 Definitions

100.03 Storm Water Drainage System District Established

100.04 Rates

100.05 Payment of Bills

100.06 Lien for Nonpayment

100.01 PURPOSE. The purpose of this chapter is to establish a Storm Water Utility and provide a means of funding the construction, operation, and maintenance of storm water management facilities, including (but not limited to) detention and retention basins, storm water sewers, inlets, ditches and drains, and cleaning of streets. The Council finds that the construction, operation, and maintenance of the City's storm and surface water drainage system should be funded through charging users of property which may connect or discharge directly, or indirectly, into the storm and surface water drainage system.

100.02 DEFINITIONS. For use in this chapter, unless the context specifically indicates otherwise, the following terms are defined:

1. "Connection" means the physical act or process of tapping a public storm water sewer or drainage line, or joining onto an existing side sewer, for the purpose of connecting private impervious surface or other storm and surface water sources or systems to the public storm and surface water system. It also includes creation or maintenance of impervious surface that causes or is likely to cause an increase in the quantity or decrease in quality or both from the natural state of storm water runoff, and which drains, directly or indirectly, to the storm and surface water system.
2. "Customer" means, in addition to any person receiving storm water service from the City, the owner of the property sewed, and as between such parties the duties, responsibilities, liabilities and obligations hereinafter imposed shall be joint and several.
3. "Storm and surface water drainage system" means any combination of publicly owned storm and surface water quantity and quality facilities, pumping, or lift facilities, storm and secondary drain pipes and culverts, open channels, creeks and ditches, force mains, laterals, manholes, catch basins and inlets, including grates and covers thereof, detention and retention facilities, laboratory facilities and equipment, and any other publicly owned facilities for the collection, conveyance, treatment and disposal of the storm and surface water

system within the City, to which sanitary sewage flows are not intentionally admitted.

4. "User" means any person who uses property that maintains connection to, discharges to, or otherwise receives services from the City for storm water management. The occupant of occupied property is deemed the user. If the property is not occupied, the person who has the right to occupy it shall be deemed the user.

100.03 STORM WATER DRAINAGE SYSTEM DISTRICT ESTABLISHED. Pursuant to the authority of Section 384.84(5) of the Code of Iowa, the entire City is hereby declared a Storm Water Drainage System District for the purpose of establishing, imposing, adjusting, and providing for the collection rates for the operation and maintenance of storm water management facilities. The entire City, as increased from time to time by annexation, shall constitute a single Storm Water Drainage System District.

(Code of Iowa, Sec. 384.84[5])

100.04 RATES. Each customer shall pay for storm and surface water drainage system service provided by the City. The rates for the operation and maintenance of the storm water management facilities shall be collected by imposing a monthly rate on each residential, commercial, and industrial customer within the City of Olin. The Council may adopt rules, charges, rates, and fees for the use of the City's storm and surface water system, and for services provided by the City relating to that system. Such rules may include delinquency and interest charges and penalties. Such charges and fees shall be just and equitable based upon the actual costs of operation, maintenance, acquisition, extension, and replacement of the City's system, the costs of bond repayment, regulation, administration, and services of the City. A fee of one dollar (\$1.00) shall be charged to each utilities customer each billing cycle.

100.05 PAYMENT OF BILLS. All Storm Water Drainage System District charges shall be due and payable under the same terms and conditions provided for payment of a combined service account as contained in Section 92.04 of this Code of Ordinances. All City services may be discontinued in accordance with the provisions contained in Section 92.05 if the combined service account becomes delinquent, and the provisions contained in Sections 92.06, 92.07 and 92.08 relating to lien exemptions and lien notices shall also apply in the event of a delinquent account.

(Code of Iowa Sec. 384.84[2b] and [2d])

100.06 LIEN FOR NONPAYMENT. The owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for charges

for the operation and maintenance of the storm water management facilities. Any such charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

(Code of Iowa Sec. 384.84[3a])

(Ord. 101-04 – Oct. 12 Supp.)
